

Rubber Parking Curbs – Wheel Stops

- These parking curbs are used in parking lots, multi-storey car parks and underground garages to separate pedestrian zones, as well as in other areas to restrict car parking.
- They are suitable for both outdoor and indoor use, and are resistant to long-term environmental conditions, including the exposure to salts and oils.
- These products are typically placed on a hard surface (such as concrete, paving tiles or asphalt).

Technical characteristics

Measurements	1825x150x80 mm
Weight	17,3 kg
Raw materials	SBR granules, polyurethane adhesives. Non-toxic
