

Rubber Base Plates for road signs and segmented fences

- Rubber base plates are used to secure temporary road signs and segmented fences, ensuring their stability.
- They are suitable for both outdoor and indoor use, and are resistant to long-term environmental conditions, including the exposure to salts and motor oils.
- The plates adhere well to the road surface, forming a stable and solid foundation.

Technical characteristics

Measurements	760x370x115 mm
Weight	25 kg
Raw materials	SBR granules, polyurethane adhesives. Non-toxic
Warranty	2 years
Exploitation	For outdoor and indoor use
Maintenance	Easily washable with water. High-pressure washing is not recommended
Installation	Designed and manufactured with handles that make it easy to lift and carry them to desired locations. It contains such holes: <ul style="list-style-type: none">• 1x square hole 50x50 mm• 1x square hole 70x70 mm• 2x round holes Ø 45 mm
